LETTER FROM THE ADMIN

**DÎRJAN DAVID
ALEXANDRU**

Administrator

This year I started working on a project with the intention of taking it to the best possible point and at the top of the sector. I have 2 years of experience in website creation, web application programming and marketing.

In September I opened the company, I am still developing the plan so that the return on investment is always higher than 50%.

I am at the beginning, I saved 1 year in Spain and I opened the company in Romania. Now it's time to invest and reach the first customers.

With the creation of this company I am starting a new stage in my life, a stage in which I cannot afford to fail. I have to be there 24/7 and offer everything I know.

Apart from this personal project I am studying Economics and Marketing at the UOC (Spain).

I have many plans for the years to come. I'm going to bring value to the market and I'm going to generate a revolution within online agencies.

God be with me.
